

Virtual Child Passenger Safety Workshop

This virtual 75-minute workshop hosted by the Auto Club of Southern California includes information about how to select the right safety seat for your child, how to correctly secure your child in a seat, and safety seat installation tips. Certified Child Passenger Safety Technicians teach these workshops and focus on California's occupant protection laws and best practices.

Free Resources and Giveaways for Attendees!

Topics include:

- Occupant protection laws
- How to select the correct safety seat for your child
- How to correctly secure your child in the seat
- Resource materials and education

Important information for attendees:

- We will not be installing your child safety seat in your vehicle. *Advanced registration is required.*
